# *Camp Clifton Summer Education Program*

The picture can't be displayed.

**Summer Brain Gain** is the Boys & Girls Club of America's summer learning initiative created to mitigate or reverse summer learning loss.

The **Summer Brain Gain** program consists of six weeks of robust summer learning. Each day members spend 60 minutes of academic led instruction performing engaging theme-based activities.

Project-based learning is the guiding instructional approach for the **Summer Brain Gain** curriculum. The approach establishes Club members as the drivers, and they are highly engaged in both learning and fun. Club professionals and activity leaders support, facilitate and guide these activities in a role more like mentor or coach, rather than a teacher.

**Gardening**-Campers will have fun learning about all aspects of gardening from planting to maintaining, to harvesting and consuming their harvest.

**Nutrition Education**-Cooking lessons, My Plate and Portion Distortion are all part of our summer camp nutrition education offerings.

**STEM** - Campers will learn to think like engineers when engaged in activities such as creating stomp rockets and making boats from clay. They will participate in healthy competition with engineering challenges such as an egg drop, and science experiments will include crystal-making and extracting DNA from strawberries. Campers will also take advantage of the hot weather and learn about the different states of matter by making ice cream!
